HIGH SCHOOL

We hope the information we've sent has been helpful as you make the important choice for your student's high school. We understand that parents want safe, positive learning environments, smaller class sizes, better classroom discipline, AP classes and dual enrollment plus higher college acceptance rates.

We are proud to inform you that Jefferson Preparatory High School meets all of the above criteria, and the Arizona Department of Education has awarded us an "A" rating. Just as your student's report card is key to assess competence, a school's report card is important to review. You can view ours in the graphic to the right. In checking school report cards within the Deer Valley Union High School district and proximity zip codes, there are only 6 schools awarded the "A" rating, including ours. We believe every student deserves to receive an "A" rated education, and parents should not have to pay for a private education to equip their student to succeed.

In addition to our positive, rigorous traditional education, we offer multiple extracurricular activities. We believe it is important for students to experience all of the joy their high school years can bring. One of our families who has been with JPHS for seven years now had this to say:

"We are going on our 7th year and 3rd child at Jefferson Prep. This school has been a great match for each of them. The smaller school size has granted them more opportunity to get involved—whether it's been sports, theatre, or student government. Each of my children have left Jefferson having a principal, teacher, coach or friend that has made an amazing impact on their lives, and for that we are extremely grateful."
